

Laffort USA 1460 Cader Lane, Suite C, Petaluma, CA 94954. T (707) 775 4530 F (707) 775 4537

August 6, 2021

**Dear Sir/Madam**

**RE: Docket No. TTB-2021-0007; Notice No. 204 Promoting Competition in Beer, Wine and Spirits**

For over 120 years, Laffort has developed and produced wine treating materials for the world wine industry, for clarifying, stabilizing, preserving, fermenting, and making other corrections. In the USA, we count in our many thousands of winery customers a range of production facilities from the largest wineries in the world down to the smallest commercial producers.

Laffort USA seek an extension to the comment period in Notice 204. The comment period is scheduled to end on August 18, 2021. Laffort USA requests a two-week extension to the current comment period, to September 1<sup>st</sup>, 2021.

The wine industry is fast approaching its busiest season, the harvest, and industry members are fully occupied in preparing for this. With an additional two weeks, we can provide more depth and detail in our comments. To give the U.S. wine industry the full ability to respond to this proposed rulemaking, we believe a two-week extension is appropriate and necessary.

Please contact us with any questions.

Sincerely,

Shaun Richardson

General Manager
