RE: Docket number TTB-2021-0007, Notice No. 204
Submitted electronically via Regulations.gov

Enartis USA Inc is a major supplier of winemaking supplies and technology and works closely with most wineries in the USA to help them optimize their processes, quality and support their innovation, which is key to increase competitiveness.

With grape harvest underway in many parts of the USA, the ability of the industry to comment on this RFI is limited, in particular for those involved in grape growing and winemaking.

For this reason, Enartis USA respectfully requests an extension of the comment period in Notice No. 204. The comment period is scheduled to end on August 18, 2021. Enartis USA requests a two-week extension to the current comment period, to September 1st, 2021. To give the U.S. wine industry the full ability to respond to this proposed rulemaking, we believe a two-week extension is appropriate and necessary.

Thank you in advance for your consideration of our comment,

Sincerely,

A handwritten signature in black ink that reads "José Santos".
